For Your Information:

Our member Dorothy Armistead is Chair of the Editorial Committee of *The Nutmegger*, the quarterly journal of the Connecticut Society of Genealogists. It is under Dorothy's direction first as President and then as Editorial Chair that the journal has improved its quality and appearance over the past few years. She has made the enclosed guidelines available to our CPGC members in response to the concerns we expressed during our very first meeting about making our research results available to others.
